

JAMBI PREDICTS

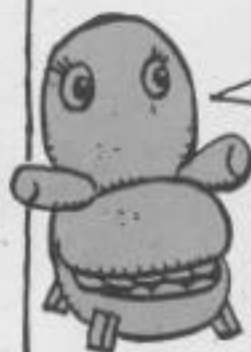

Mecca lekka Hi, mecca heiney HO!

Hi gang! It's time again for my fearless predictions for the future! I see the mysteries of time and space, I feel the vibrations of what is to be, I validate all parking receipts....

Jambi predicts:

- Cool Cat, Chicky Baby and Dirty Dog Trio will make a video with the Rolling Stones!
- Pee-wee Brand clothing will become the new rage across college campuses. Thousands of college students will try to fit into their younger siblings outfits!

- The California dancing raisins will be replaced by the Playhouse Ant Farm!
- Four out of five scientists agree... The Saturday morning screaming for the secret word will reduce the ozone layer by .0000003 1/2%.

Hi Kids! Look it's me, Chairry with this month's fun recipe!

You can make this real cool "Apple From Space" treat after school or anytime you like!

- You need: One big red apple, peanut butter, chocolate chips
- Directions: Slice the apple into round slices 1/2" thick. Spread on the peanut butter covering the whole slice thickly and arrange the chocolate chips on top, circling the apple slice.

It's a great energy snack and looks like a real tasty flying saucer!

Pee-wee's Fun Facts

- The African Cheetah is the fastest land animal and can reach speeds of 70 miles per hour!
- If you rub an air-filled balloon back and forth on your hair, the static electricity will allow it to stick to a wall or a ceiling! No fooling!
